

Dawn enrolled in the FSET Program in July and completed a temporary job w/ ABR Employment Services. In October, Dawn completed her temporary position and was back to job searching.

Dawn began meeting with FSET in early October more frequently. She updated her resume, practiced interview skills and completed job applications with the support of FSET.

Dawn's FSET Case Manager referred her to apply with Salelytics. Dawn completed the application and a direct referral was sent by the Career Services Specialist.

Dawn completed two phone interviews and an in-person interview all in October and was officially hired by Salelytics on 10/24/19 and started on 11/8/19.

Dawn was very excited for the career field change as she had a background in Manufacturing. She is still employed with Salelytics and doing well in her new job.
