

The AmericInn franchise was founded by Jim Graves in Minnesota with the first location opening in 1984. A decade later, the hotel chain began franchising their hotels and today has 240 hotels in over 20 states, found mainly in the Midwest and on the East coast. Wyndham purchased the AmericInn Franchise at the end of 2017 and took over in early 2018.

The Plover AmericInn was built in 1996 and has 64 guest rooms, including five whirlpool suites. The hotel has had a number of owners since its opening 24 years ago, with the current owners being with the hotel since 2006. They are a local family who have made a number of changes throughout the years, listening to the voices of their guests as well as keeping up with trends in the industry.

The AmericInn in Plover is an award-winning hotel. For three consecutive years, 2017-2019, they won the Best of AmericInn award. In addition, they hold 3 diamonds with Triple A, 4.5 out of 5 stars with TripAdvisor, and 8.8 out of 10 with Hotels.com.

Currently there are 14 staff members working both at the front desk and in housekeeping. Derek, General Manager at the hotel states he trains his staff to show guests that stay with them that they are family. Not only guests, but all those who come to visit them are family. The hotel offers open swim for people in the Plover, Stevens Point area and has a Hospitality Room that can be used to hold company meetings or birthday parties with the use of the pool.

When looking to fill his open housekeeping or front desk positions, Derek turns to the FSET Program first to find qualified candidates before looking anywhere else. If you are interested in a position at the AmericInn in Plover, check out their current openings on the Portage County job leads page on MyFSET.net or stop by in person to pick up an application. If you need help with your application, contact your case manager as we are here to help you through both the application and hiring process!
