

Linetec is one of the nation's largest PVDF paint (Kynar) and anodize finishers, and the largest independent architectural finisher. Located in Wausau, Wisconsin, Linetec serves customers across the country for finishing such products as aluminum windows, wall systems, doors, skylights and other architectural metal components, as well as automotive, marine and manufactured consumer goods.

Linetec was established in 1983 to fulfill a niche in the coating of architectural products as there was increased demand by architects for windows of different colors. Through the years, Linetec has become the largest architectural paint and anodizing finisher in the United States. Linetec is a part of Apogee Enterprises which includes Wausau Window and Wall Systems in the Northcentral region.

Examples of some local work by Linetec are WOW Family Entertainment and Tommy's Express Car Washes in Wausau and Weston.
